TAKE EVERY OPPORTUNITY HANDED TO YOU

Name : S. Dharmika

Subject : Mobile Computing (Lab)

Std : Sec : Roll No

School :

S.No.	Date	Title	Page No.	Teacher's Sign / Remarks
1)		Cellular system components diagram		
2)		Mobile station ui prototype		
3)		Network switching subsystem flowchart		
4)		Mobile network protocol stack diagram		
5)		Localization APP wireframe		
6)		Mobile network Handoff simulation		
7)		Cellular system Dashboard		
8)		PLMN infographic		
9)		GSM Service UI Prototype		
10)		Multiple Access Technique comparison		
11)		Secure Mobile APP Wireframe		
12)		1G to 5G Evolution diagram		
13)		Mobile communication vs Mobile computing infographic		
14)		GPRS operation flowchart		
15)		Mobile IP Issues Presentation		
16)		Mobile IP Routing protocols		
17)		Ad Hoc network APP		
18)		Android vs ios vs windows		
19)		Android app UI protocols		
20)		power Management App		
21)		Mobile App Connectivity		
22)		Localization feature wireframe		
23)		Secure Mobile app ui Prototype		

24)	Android intent lifecycle flowchart	✓
25)	Background Service App wireframe	✓
26)	Data replication App wireframe	✓
27)	core video vs Android Multimedia presentation	✓
28)	Multimedia app wireframe	✓
29)	Peer-to-peer Mobile App wireframe	✓
30)	Optimized Mobile App UI wireframe	✓

✓ Completed

 by Anwar W

EXP-1

USE FIGMA TO CREATE AN INTERACTIVE DIAGRAM

AIM

To create an interactive diagram illustrating the components of a basic cellula system

PROCEDURE

- * Open Pigma
- * Create new file
- * Select the frames
- * Fill in the Content
- * Design visual Elements
- * Make it interactive
- * Add annotations
- * Storyboard Animations
- * Review & Edit it
- * Save and share

RESULT

Hence an interactive diagram using figma was created successfully.

EXP-2

DESIGN A USER INTERFACE PROTOTYPE FOR A MOBILE STATION USING FIGMA, CONSIDERING CONNECTIVITY AND CONVENIENCE

AIM

TO create a user interface prototype for a mobile station using figma, considering connectivity and convenience

PROCEDURE

- * Open figma
- * create new file
- * Select the frames
- * Design visual Elements
- * Make it interactive
- * Add icons
- * Incorporate Multimedia
- * Storyboard Animation
- * Review & edit it
- * Save and share

RESULT

Thus, A user interface prototype for a Mobile Station using figma was successfully executed.

EXP-3

DEVELOP A FLOWCHART IN FIGMA DEPICTING THE OPERATION OF A NETWORK SWITCHING SUBSYSTEM IN A MOBILE CELLULAR SYSTEM

AIM

To draw a flowchart in figma depicting the operation of network switching subsystem in a mobile cellular system

PROCEDURE

- * Open figma
- * Create new file
- * Click on the resources icon and click it-
- * Search flow chart
- * Drag & drop the shapes on screen
- * Grouping alignment
- * Review & Edit
- * Save and share

RESULT

Hence, the flowchart in figma depicting the operation of a network switching subsystem in a mobile cellular has been successfully drawn.

EXP-A

CREATE A VISUAL REPRESENTATION IN FIGMA HIGHLIGHTING THE KEY ELEMENTS OF MOBILE NETWORK PROTOCOL STACKS

AIM

Design a visual representation in figma highlighting the key elements of mobile network protocol stacks

PROCEDURE

- * open figma
- * create a new file
- * select the frames
- * fill in the content that is required for presentation
- * Design visual Elements
- * Make it interactive
- * Review and edit it
- * save and share

RESULT

Hence, The visual representation in figma highlighting the key elements of mobile network protocol stacks is created & Executed successfully.

EXP-5

DESIGN A WIREFRAME FOR A MOBILE APPLICATION THAT INCORPORATES LOCALIZATION FEATURES USING FIGMA

AIM

TO design a wireframe using figma for a mobile application that incorporates Localization features

PROCEDURE

- * open figma
- * create a new file
- * Select the frames
- * Design visual Elements
- * Make it Interactive
- * Add icons on the frame
- * Incorporate Multimedia
- * Review and Edit the prototype
- * Save and share.

RESULT

Hence the wireframe for a mobile application that incorporates localization features using Figma is created and executed successfully.

EXP-6

USE FIGMA TO SIMULATE A HANDOFF SCENARIO IN
A MOBILE NETWORK AND VISUALIZE THE PROCESS

AIM

TO simulate a handoff scenario in a mobile network and visualize the process using Figma

PROCEDURE

- * Open Figma
- * Create a new file
- * Select the frames
- * Fill in the content that is required for presentation
- * Design visual elements
- * Make it interactive
- * Add annotations
- * Incorporate Multimedia
- * Storyboard Animation
- * Review and edit the prototype
- * Save and share

RESULT

Hence, The simulated a handoff scenario in a mobile network and visualized the process using figma

EXP-7

DEVELOP A DASHBOARD PROTOTYPE IN FIGMA DISPLAYING PERFORMANCE CRITERIA FOR A CELLULAR SYSTEM

AIM

to develop a dashboard prototype in figma displaying performance criteria for a cellular system.

PROCEDURE

- * open figma
- * create new file
- * select the frames
- * fill the content
- * Design visual Elements
- * Make it interactive
- * Add Annotations
- * Review and edit the prototype
- * Save and share

RESULT

Hence developed a dashboard prototype in Figma explaining performance criteria for a cellular system.

EXP-8

CREATE AN INFOGRAPHIC IN FIGMA EXPLAINING THE CONCEPT OF PUBLIC LAND MOBILE NETWORK (PLMN)

AIM

To create an infographic in Figma explaining the concept of public Land Mobile Network (PLMN)

PROCEDURE

- * Open figma
- * create new file
- * Select the frames
- * Fill in the content that is required for presentation
- * Design visual Elements
- * Make it Interactive
- * Add annotations
- * Incorporate Multimedia
- * storyboard animation
- * Review and edit the prototype
- * Save and share

RESULT

Hence created an infographic in figma explaining the concept of public Land Mobile Network (PLMN)

EXP-9

DEVELOP A USER INTERFACE PROTOTYPE FOR A GSM SERVICE USING FIGMA

AIM

TO develop a user interface prototype for a GSM service using figma.

PROCEDURE

- * Open figma
- * create new file
- * select the Frames
- * Fill in the content that is required for presentation
- * Design visual Elements
- * Make it interactive
- * Add Annotations and Explanations
- * Incorporate Multimedia
- * Storyboard Animation
- * Review and edit it
- * save and share

RESULT

Hence developed a user interface prototype for a GSM service using Figma.

EXP-10

CREATE A VISUAL REPRESENTATION IN FIGMA SHOWCASING THE DIFFERENCES BETWEEN ACCESS TECHNIQUES

AIM

TO create a visual representation in Figma showcasing the differences between various multiple access techniques.

PROCEDURE

- * Open figma
- * create new file
- * select the frames
- * fill the content that is required for presentation
- * Design visual Elements
- * Make it interactive
- * Add annotations
- * Incorporate Multimedia
- * storyboard Animation
- * Review and edit it
- * Save and share

Hence, created a visual representation in figma showcasing the differences between various multiple access techniques

EXP-11

DESIGN A WIREFRAME FOR A MOBILE APPLICATION THAT INCORPORATES SECURITY MEASURES USING FIGMA.

AIM:

using Figma design a wireframe for a mobile application (Bank app v2) that incorporates security measures

PROCEDURE

- * Open Figma
- * create a new file
- * select the frames
- * Design visual Elements
- * Make it interactive
- * Add Icons on the frame
- * Incorporate Multimedia
- * storyboard Animation
- * Save and share

RESULT

A wireframe for a mobile application that incorporates security measures using Figma is created and executed successfully.

EXP-12

USE FIGMA TO CREATE AN INTERACTIVE DIAGRAM ILLUSTRATING THE EVOLUTION OF 1G TO 5G

AIM

Design an interactive diagram illustrating the evolution from 1G to 5G using Figma.

PROCEDURE

- * Open figma
- * Create a new file
- * Select the frames
- * fill in the content
- * Design visual Elements
- * Make it interactive
- * Add Annotations
- * Storyboard Animation
- * Review and Edit
- * Save and share

RESULT

Hence an interactive diagram illustrating the evolution from 1G to 5G in Figma is created and Executed successfully.

EXP-18

DESIGN AN INFOGRAPHIC IN FIGMA COMPARING MOBILE COMMUNICATION AND MOBILE COMPUTING

AIM

using figma design an infographic comparing mobile communication and mobile computing

PROCEDURE

- * Open figma
- * Create a new file
- * Select the frames
- * Fill in the content that is required for presentation.
- * Design visual elements
- * Make it interactive
- * Add annotations
- * Storyboard Animation
- * Review and Edit
- * Save and share

RESULT

An infographic design in figma comparing mobile communication and mobile computing is created successfully.

EXP-13

DESIGN AN INFOGRAPHIC IN FIGMA COMPARING MOBILE
COMMUNICATION AND MOBILE COMPUTING

AIM

using figma design an infographic comparing mobile communication and mobile computing

PROCEDURE

- * open figma
- * create a new file
- * select the frames
- * fill in the content that is required for presentation
- * Design visual elements
- * Make it interactive
- * Add annotations
- * Storyboard Animation
- * Review and Edit
- * Save and share

RESULT

An infographic design in figma comparing mobile communication and mobile computing is created successfully.

EXP-14

DEVELOP A FLOWCHART IN FIGMA EXPLAINING THE OPERATION OF GENERAL PACKET RADIO SERVICE (GPRS)

Aim

Draw a flowchart in figma explaining the operation of General packet radio service (GPRS)

PROCEDURE

- * OPEN figma
- * create a new file
- * Click on the resources icon
- * Search for flow chart
- * Drag and drop the shapes on the screen
- * Now, Enter the content on the shapes
- * Grouping and alignment
- * Review and edit
- * Save and share

RESULT

Hence, the flowchart in figma explaining the operation of General packet Radio service (GPRS) has been drawn successfully.

EXP-15

DESIGN AN INTERACTIVE PRESENTATION IN FIGMA EXPLAINING THE ISSUES IN MOBILE IP

Aim

To design an interactive presentation in figma explaining the issues in mobile ip

PROCEDURE

- * Define presentation structure
- * Create a figma project
- * Design visual Elements
- * Make it interactive
- * Add annotations and Explanations
- * Incorporate Multimedia
- * Storyboard Animation
- * Test the prototype
- * Collaborate & Gather feedback
- * Finalize and share

RESULT

Hence, the interactive presentation in Figma explaining the issues in mobile IP is created and executed successfully.

EXP-16

DEVELOP A WIREFRAME FOR A MOBILE APPLICATION THAT ADDRESSES CHALLENGE RELATED TO ADHOC WIRELESS NETWORKS USING FIGMA

AIM

create a wireframe for a mobile application that addresses challenges related to ad hoc wireless networks using Figma

PROCEDURE

- * Open Figma
- * create a new file
- * select the frames
- * Design visual Elements
- * Make it interactive
- * Add icons on the frame
- * Incorporate Multimedia
- * Storyboard Animation
- * Review and Edit
- * Save and share

RESULT

Hence, a wireframe for a mobile application that addresses challenges related to ad hoc wireless networks using Figma is created and executed successfully.

EXP-17

CREATE A VISUAL REPRESENTATION IN FIGMA ILLUSTRATING THE OPERATION OF PROACTIVE AND REACTIVE ROUTING PROTOCOLS IN MOBILE IP

AIM

TO create a visual representation in figma illustrating the operation of proactive & reactive routing protocols in mobile IP

PROCEDURE

- * Define presentation structure
- * create a figma project
- * Design visual elements
- * Make it interactive
- * Add annotations & explanations
- * Incorporate Multimedia
- * storyboard animation
- * Test the prototype
- * Finalize & share

RESULT

Hence, The illustrating the operation of proactive & reactive routing protocols in mobile IP is created & Executed successfully.

EXP-18

USE FIGMA TO CREATE AN INFOGRAPHIC COMPARING AND CONTRASTING THE ARCHITECTURE OF ANDROID, IOS & WINDOWS

AIM

To use figma to create an infographic comparing and contrasting the architecture of android, ios & windows

PROCEDURE

- * Define presentation structure
- * create a figma project
- * Design visual Elements
- * Make it interactive
- * Add annotations
- * Incorporate Multimedia
- * storyboard animation
- * Test the prototype
- * Finalize and share

RESULT

Hence, the comparing and contrasting the architecture of android, ios and windows is created and Executed successfully.

EXP - 19

DEVELOP A USER INTERFACE PROTOTYPE FOR AN ANDROID APPLICATION USING FIGMA

AIM

To develop a user interface prototype for an Android application using Figma

PROCEDURE

- * Create a file
- * Add the first frame
- * Add shapes
- * Add Text
- * Create The Second frame
- * Add prototyping

RESULT

Hence, the develop a user interface prototype for an Android application created and executed successfully.

EXP-20

DESIGN A WIREFRAME IN FIGMA FOR A
MOBILE APPLICATION SHOWCASING POWER MANAGEMENT
APPROACHES

Aim

Design a wireframe in figma for a mobile application showcasing power management approaches

PROCEDURE

- * Create a file
- * Add the first frame
- * Add shapes
- * Add text
- * Create the second frame
- * Add prototyping

RESULT

Hence, the mobile application showcasing power management is created and executed successfully.

EXP-21

IN FIGMA, DESIGN A MOBILE APP INTERFACE THAT
PRIORITIZES USER CONNECTIVITY AND CONVENIENCE

AIM

TO design a mobile app interface that prioritizes user connectivity and convenience. Highlight key elements.

PROCEDURE

- * create a file
- * Add the first frame
- * Add shapes
- * Add text
- * create The second frame
- * Add prototyping.

RESULT

Hence, the mobile app interface that prioritizes user connectivity created and executed successfully.

EXP-22

CREATE WIREFRAME ILLUSTRATING HOW LOCALIZATION FEATURES CAN BE INTEGRATED INTO A MOBILE APP, ENSURING A USER-FRIENDLY DESIGN IN FIGMA

Aim

Wireframes illustrating how localization features can be integrated into a mobile app using pigma

PROCEDURE

- * open figma
- * create a new file
- * select the frames
- * Design visual Elements
- * Make it interactive
- * Add icons on the frame
- * Incorporate Multimedia
- * storyboard Animation
- * Review and edit the prototype
- * Save and share

RESULT

Hence, The Localization features can be integrated into a mobile app is created and executed successfully

EXP-28

DEVELOP A USER INTERFACE PROTOTYPE IN FIGMA SHOWCASING SECURITY MEASURES FOR A MOBILE APP.

AIM

Developing a user interface prototype in Figma showcasing security measures for a Mobile App

PROCEDURE

- * Define presentation structure
- * create a figma project
- * Design visual Elements
- * Make it interactive
- * Add annotations and Explanations
- * Incorporate Multimedia
- * Storyboard Animation
- * Test it
- * finalize and share

RESULT

Hence, a user interface prototype in Figma showcasing security measures for a mobile app have been created successfully.

EXP - 2A

USE FIGMA TO DESIGN A FLOWCHART DEMONSTRATING THE LIFECYCLE OF AN ANDROID INTENT, INCLUDING EXPLICIT AND IMPLICIT INTENTS

AIM

Design a flowchart demonstrating the lifecycle of an Android intent, including implicit & explicit intents

PROCEDURE

- * Open figma
- * create a new file
- * click on the resource icon
- * search for the flow chart
- * Drag & drop the shapes on the screen
- * Enter the content on the shapes
- * Grouping and alignment
- * Review and edit
- * Save and share

RESULT

Hence to design a flowchart demonstrating the lifecycle of an android intent have been successfully implemented.

Exp-25

CREATE A WIREFRAME FOR AN ANDROID APP THAT UTILIZES BACKGROUND SERVICES. USE FIGMA TO ILLUSTRATE THE SERVICE INTERACTIONS AND DATA FLOW

AIM

Create a wireframe for an android app that utilizes background services using figma

PROCEDURE

- * open figma
- * create a new file
- * select the frames
- * Design visual Elements
- * Make it interactive
- * Add icons on the frame
- * Incorporate Multimedia
- * Storyboard Animation
- * Review and Edit
- * save and share

RESULT

Hence, a wireframe for an Android app that utilizes background services using Figma have been created successfully.

Exp-26

DESIGN WIREFRAME FOR AN MOBILE APP SHOWCASING DATA REPLICATION TECHNIQUES. USE FIGMA TO DEMONSTRATE THE SYNCHRONIZATION PROCESS

AIM

TO Design a mobile app showcasing data replication techniques using figma.

PROCEDURE

- * Open figma
- * create a new file
- * select the frames
- * Design visual elements
- * Make it interactive
- * Add icons on the frame
- * Incorporate Multimedia
- * Storyboard Animation
- * Save & share.

RESULT

Hence, a mobile app showcasing data replication techniques using figma have been created successfully.

EXP-27

USE FIGMA TO CREATE AN INTERACTIVE PRESENTATION
COMPARING TO CORE VIDEO FRAMEWORK IN IOS
AND THE MULTIMEDIA FRAMEWORK IN ANDROID

AIM

Create an interactive presentation comparing the core video framework in ios and Android using Figma

PROCEDURE

- * Define presentation Structure
- * create a figma Project
- * Design a visual Elements
- * Make it interactive
- * Add Annotations and Explanations
- * Incorporate Multimedia
- * Storyboard Animation
- * Test the prototype
- * Finalize and share

RESULT

Hence, an Interactive presentation comparing the core video framework in ios and Android using Figma have been created successfully.

EXP-28

DESIGN A WIREFRAME IN FIGMA FOR A MULTIMEDIA RICH MOBILE APP, INCORPORATING ELEMENTS FROM BOTH CORE VIDEO AND CORE MEDIA FRAMEWORKS

AIM

Design a wireframe for a multimedia-rich mobile app, incorporating elements from both core video and core Media frameworks using figma

PROCEDURE

- * Open figma
- * create a new file
- * Select the frames
- * Design visual elements
- * Make it interactive
- * Add icons on the frame
- * Incorporate MultiMedia
- * Review and edit
- * Save and share

RESULT

A wireframe for Multimedia-rich mobile app incorporating elements from both core video and core Media frameworks using figma have been created successfully.

EXP-29

CREATE WIREFRAMES FOR A COLLABORATIVE MOBILE APP USING FIGMA, SHOWCASING THE PEER-TO-PEER INTERACTIONS IN REAL-TIME

AIM

Wireframes for a collaborative mobile app showcasing the peer-to-peer interactions in real time using figma.

PROCEDURE

- * Open figma
- * Create a new file
- * Select the frames
- * Design visual elements
- * Make it Interactive
- * Add icons
- * Incorporate Multimedia
- * Review and edit
- * Save and share

RESULT

Hence, a wireframes for a collaborative mobile app showcasing the peer-to-peer interactions in real-time using figma have been created successfully.

EXP-30

DEVELOP WIREFRAMES FOR A COLLABORATIVE
MOBILE APP, SHOWCASING THE PEER-TO-PEER
INTERACTIONS IN REAL-TIME USING FIGMA HAVE
BEEN CREATED SUCCESSFULLY

AIM

To Develop wireframes for a visually rich mobile app with optimized graphics and UI performance, using figma to showcase the design principles

PROCEDURE

- * Open figma
- * Create a new file
- * Select the frames
- * Design visual Elements
- * Add icons
- * Incorporate Multimedia
- * Review and edit
- * save and share

RESULT

Thus, The develop wireframes for a visually rich mobile app with optimized graphics and UI performance is created and executed successfully.
